THE GARAGISTES'

A **garage wine** (guh.RAZH wyn) *n.* is also sometimes called a "chateau garage" wine (2000), and other names for small-batch, high-quality wines are *micro-wine* (1998), *micro-cuvee* (MY.kroh-koo.vay; 2000), and *cult wine* (1985).

---www.wordspy.com

...the true **garagiste** is someone who has no other possibilities than to make the greatest wine he can because he has no money, no big vineyards, and he just has to live off the sale of 3,000 cases. For me, that's a **garagiste**. That's the pure spirit of the garage.

--- *Jean-Luc Thunevin, Winemaker, Valandraud*

Garage wines are the in-thing in Bordeaux. In the past, big estates were characterised by the brands they made on their large tracts of land. ...**garage wines** adopt a Burgundian approach: you select a minute piece of soil and throw a small fortune at it. You pare down the yields to nothing but a few healthy grapes and vinify them in spanking new oak barrels, then charge a king's ransom for a few oversubscribed bottles.

—*Giles MacDonogh, "Depardieu with a nose for glamour," The Financial Times (London), May 4, 2002*

Sparkling Wines

The classic Sparkling Wine is Champagne and the varietals used are Chardonnay, Pinot Noir and Pinot Meunier. But many others are produced, for example, Cava in Spain, Asti in Italy and Cap Classique in South Africa. And these wines matches well with oysters, cream based pastas, olives and cheese.

These wines are indeed unique and can offer remarkable value. Try Them!!

Rosé

Our rosés are dry in style. Most quality rosés are produced by grapes being macerated (steeped) with their skins for a short time before being vinified as a white wine. The pink color can range from pale orange to a near-purple, depending on the grapes and wine making.

Rosés typically pair well with oysters, fish, antipasti, and charcuteries.

Pinot Noir

Pinot Noir generally produces light to medium bodied red wines, well-suited to pair with poultry, ham, lamb and pork. Its flavors are complex and reminiscent of sweet red berries, plums, tomatoes, cherries and at times a notable earthy or wood-like flavor, depending on specific growing conditions.

Sangiovese/ Blend

This Tuscan beauty is a truly sumptuous variety that make an appearance in Chiantis, Vino Nobiles, and Brunellos and shows notes of cranberries, red cherries, fresh herbs, and a whiff of new leather. Some of the most sought-after wines tend to be a blend of this classy grape with Cabernet Sauvignon or Merlot resulting in what are commonly known as Super-Tuscans. Antipasto platter, charcuterie, veal cheeks, roasted lamb, kurobuta pork and cheese platters are lovely matches.

Merlot/ Blend

Merlot is a grape that is used as both a blending grape and for varietal wines. Merlot-based wines usually have medium body with hints of berry, plum, and currant. Its softness and "fleshiness", combined with its earlier ripening, makes Merlot an ideal grape to blend with the sterner, later-ripening Cabernet Sauvignon. Pairs well with steaks, pork and duck.

Depending on the growing region, the Syrah grape displays a wide range of styles from medium to full-bodied wines with firm tannins and rich round flavors of black cherry, blackberry, plum, bell pepper, black pepper, clove, licorice, dark chocolate and smoked meat. Cabernet Sauvignon/ Blend

Cabernet Sauvignon is often referred to as the "King of Red Wine Grapes". The wines range from medium-bodied to full-bodied and are characterized by their high tannin content which serve to provide structure while supporting a rich, ripe berry, tobacco and sometimes green pepper flavor. Pairs well with beef, lamb and sharp cheeses.

Sticky Wines

A dessert wine is one that is potent, sweet, and full of flavor. Grapes are left on the vine or laid out to dry in an effort to concentrate sugar before being pressed and vinified. They are especially good with fresh bakery sweets and fruits. It can even be drunk on its own. As a rule of thumb, a dessert wine should always be sweeter than the dessert it accompanies.

Fortified Wines

Generally consumed as an after dinner beverage, fortified wines refer to those 'fortified' or strengthened by the addition of spirit. The original reason for fortification was to preserve wines, as the higher alcohol level and additional sweetness help to preserve the wine. Fortified wines include sherry, port and marsala to name a few.
